

```
./Fibonacci-gen -c 6 --one-line --numbering  
1:0, 2:1, 3:1, 4:2, 5:3, 6:5
```

```
./Fibonacci-gen --help  
--count|-c: Calculate to (c) places.  
--one-line: Print all the numbers on one line, separated by commas.  
--numbering: Prefaces each number in the sequence with it's placement.  
--last-only: Only prints the last number in the sequence.
```

```
./Fibonacci-gen -c 6 --one-line  
0, 1, 1, 2, 3, 5
```

```
./Fibonacci-gen --count 6  
0  
1  
1  
2  
3  
5
```

```
./Fibonacci-gen --count 15 --last-only  
377
```

```
./Fibonacci-gen --count 50 --last-only  
7778742049
```
